Cybersecurity and IT Support professional with 11+ years of hands-on IT support, systems and networking experience (2002–2013) and 13+ years of leadership in fast-paced operational environments (2013–2026). CompTIA A+, Network+ and Security+ certified within 8 months (Jan–Aug 2026), with practical SOC Analyst skills developed through home labs (Wazuh SIEM, Kali Linux, TryHackMe), log analysis, network traffic investigation and threat detection. Experienced in Microsoft 365 support, remote desktop, TCP/IP, DNS, DHCP, VPNs, virtualisation and incident prioritisation. Seeking an entry-level IT Support, Cybersecurity or Junior SOC Analyst role to apply strong troubleshooting, communication and security knowledge.

TECHNICAL SKILLS

Cybersecurity & SOC: Security monitoring, threat detection, vulnerability management, log analysis, incident response fundamentals, network security, security controls, risk awareness, BCDR, backup and recovery, SOC Analyst workflows, MITRE ATT&CK awareness.

Networking: TCP/IP, LAN/WAN, routing and switching fundamentals, DNS, DHCP, VPN, wireless networking and security, network troubleshooting, network scanning, Wireshark, Nmap.

Operating Systems & Platforms: Windows 10/11, Linux, macOS, Windows Server fundamentals, command-line operations, Active Directory fundamentals, Microsoft 365, virtual machines and isolated testing environments.

IT Support & Administration: 1st/2nd line technical support, help desk, hardware and software troubleshooting, incident and request handling, prioritisation, remote desktop support, software installation/configuration, user support, systems administration fundamentals.

Security Tools & Labs: Wazuh SIEM home lab, Splunk fundamentals, Wireshark, Nmap, TryHackMe SOC Analyst learning paths, Kali Linux, VMware/VirtualBox, Pwnagotchi, Flipper Zero, WiFi Pineapple.

Cloud & Technology: Cloud networking fundamentals, Infrastructure as Code (IaC) awareness, virtualisation, system and network configuration.

CERTIFICATIONS

- CompTIA Security+ — Certified (08/2026), completing the CompTIA trifecta within 8 months
- CompTIA Network+ — Certified (04/2026)
- CompTIA A+ — Certified (01/2026)
- Microsoft SC-200 Certification (in progress)
- Certified Ethical Hacker (CEH) — EC-Council (in progress)

CYBERSECURITY PROJECTS & HOME LAB

- Built and maintained a personal cybersecurity home lab using Kali Linux, virtual machines and isolated testing environments to practise defensive and offensive security techniques.
- Deployed and configured a Wazuh SIEM environment for security monitoring, log ingestion and analysis practice.
- Completed SOC Analyst and networking learning paths on TryHackMe, focusing on threat detection, security concepts and log analysis.
- Practised network scanning and reconnaissance with Nmap and analysed network traffic with Wireshark in controlled lab environments.
- Studied MITRE ATT&CK tactics and common attack techniques as part of SOC Analyst preparation.
- Used Linux command-line tools and security utilities in simulated lab environments.
- Built and configured a Pwnagotchi device for wireless-networking experimentation and hands-on learning.
- Used Flipper Zero in controlled environments to explore RFID, NFC and wireless communication concepts.
- Studied wireless security with a self-built WiFi Pineapple setup in isolated lab scenarios.

PROFESSIONAL EXPERIENCE

Deputy Manager | Miller & Carter, Resorts World Birmingham

2019–2026

- Led daily operations for a 50+ person team over 6+ years (2019–2026) in a high-volume hospitality environment, ensuring service continuity and rapid incident resolution.
- Managed escalations, prioritised competing issues and coordinated responses under pressure — skills directly transferable to IT incident management.
- Maintained high customer satisfaction standards while resolving complex, time-sensitive problems.
- Mentored and trained team members, improving accountability, performance and operational efficiency.
- Collaborated with senior leadership to implement operational improvements and maintain compliance with health, safety and service standards.

Assistant Manager | Hotel du Vin, Stratford-upon-Avon

2018–2019

- Coordinated front-of-house and back-of-house operations for 1 year (2018–2019), resolving customer and operational incidents efficiently.
- Strengthened communication, stakeholder management and problem-solving capabilities in a premium service environment.
- Supported staff training and performance improvement initiatives.
- Maintained high standards of service delivery and contributed to operational planning and continuous improvement.

Duty Manager | ASK Italian, Moreton-in-Marsh

2017–2018

- Supervised daily operations, staffing coordination, stock management and compliance for 1 year (2017–2018) in a busy restaurant environment.
- Ensured consistent operational and service standards across shifts while managing staffing and stock control.
- Developed strong organisational, multitasking and prioritisation skills.
- Ensured high operational and service standards.

Assistant Manager | Côte Brasserie, London

2013–2017

- Assisted in managing high-volume service delivery and team performance for 4 years (2013–2017) in a fast-paced London restaurant.
- Contributed to staff training and adherence to company standards.

IT Support / Helpdesk & Systems and Networking Specialist | NEXSOFT S.p.A., Salerno, Italy

2009–2013

- Provided 1st/2nd line technical support for 4 years (2009–2013), diagnosing and resolving hardware, software and network incidents across Windows and mixed environments.
- Configured, maintained and troubleshoot computer systems, peripherals and network infrastructure.
- Investigated connectivity, TCP/IP, DNS and DHCP issues, reducing user downtime and improving service continuity.
- Delivered on-site support and clear user guidance, building a strong customer-service orientation.
- Developed practical experience in IT Support, Helpdesk, Systems and Networking.

IT Support Technician | 4Business, Italy

2002–2009

- Provided hardware and software troubleshooting across Windows environments.
- Performed hardware and software troubleshooting, installation and maintenance across Windows environments for 7 years (2002–2009).
- Supported network connectivity and TCP/IP configuration for end users.
- Diagnosed and resolved technical incidents promptly, minimising business disruption.
- Delivered user support and guidance on systems and software, ensuring high first-contact resolution.

EDUCATION

ITIS – Guido Dorso, Avellino, Italy | Diploma in Information Technology | 1990–1995

Computer science, information technology, computer systems, hardware, operating systems, software, programming fundamentals, algorithms, networking and data communication.

ADDITIONAL TRAINING

- NVQ Level 3 Supervisor / Team Leader
- Health & Safety Level 3
- Food Safety Level 3
